Crawford & Company® Organizes Response As Tropical Storm Harvey Redevelops in the Gulf of Mexico

Tropical Storm Harvey is currently regaining momentum in the Gulf of Mexico. It is likely to become a tropical storm or hurricane by Friday, bringing heavy rains and potential flooding to the Texas-Louisiana Gulf Coast this weekend or early next week.

Crawford® is committed to providing best-in-class services to the insurance market. We are ready and available to assist areas as they are affected by stormy conditions and are prepared for immediate deployment. We have dedicated staff and infrastructure in place and are prepared to take on a large volume of business—no matter the size and scope. With our wide-ranging capabilities, you can count on Crawford to handle claims or back-fill staff who may be mobilized as a result of this event.

Additional Crawford services include:

- **Global Technical Services™** for large and complex and specialty losses, including **Forensic Accounting Services** for calculation of business interruption losses;
- **Vehicle Services** for auto and heavy equipment appraisals;
- **Contents Services** for contents valuation;
- **Contractor Connection®** for residential and commercial services, including board-up/taping services, emergency water mitigation, tree removal, general structural repairs, roofing textile restoration, and temporary housing; and
- **Marine and Transportation Services** for marine cargo, hull, machinery, and ocean claims-handling with a wealth of marine indemnity and adjusting expertise.

Crawford's broad network of adjusters works seamlessly with your internal staff, helping you efficiently respond to those in need. In addition, each response is scalable to the size and scope of the event. We can help you keep policyholder satisfaction high and aid in customer retention.
