### **Hurricane Harvey Continues to Strengthen Crawford & Company® Catastrophe Services<sup>SM</sup> Ready to Assist**

As Hurricane Harvey looms off the coast of Texas, businesses and residents are bracing for perilous winds and flooding. The National Weather Center is predicting up to three feet of rain in many areas and sustained winds reaching up to 110 mph. Moreover, the threat will likely linger for several days as Harvey lumbers over the shoreline, where it may ultimately build more strength and move toward Louisiana. Harvey could be the strongest hurricane to hit the U.S. in 12 years.

**Crawford® Catastrophe Services<sup>TM</sup> is already working with those likely to be affected by Harvey, assembling teams of adjusters in the area to respond at a moment's notice, no matter the size and scope of need.** Whether you require assistance processing claims or supporting your staff, we can help you minimize loss and recover quickly. We are committed to helping you keep policyholder satisfaction high and aid in customer retention.

Crawford's additional services include:

- **Global Technical Services<sup>TM</sup>**
- **Forensic Accounting Services**
- **Vehicle Services**
- **Contents Services**
- **Contractor Connection®**
- **Marine and Transportation Services**

Crawford & Company is the world's largest publicly listed independent provider of claims management solutions and trusted partner in the restoration of lives and communities following an unexpected loss.
